How a league works

- A league is played in **seasons**, and each season has several **rounds**.
- In every round you are placed in a **group**. Everyone in the group plays everyone else; you arrange the date and place of each match yourselves.
- One of the players enters the result in the application.
- When the round is closed the groups are reshuffled: the best move up, the last move down. Matches earn you points for the season **leaderboard**.

1. Find your league

1. Open the MojeLiga.eu home page.
2. Find the league you are interested in under **Leagues**.
3. Narrow the list with the funnel icon in the **League name**, **City** and **Country** column headers. The country is usually prefilled from your location; **Clear filters** removes all filters.
4. Click a row to look at the league as a visitor – you will see results and the leaderboard.

The screenshot shows the MojeLiga.eu website. At the top right, there are links for 'Kontaktovat podporu', 'CZ', and 'EN'. The main heading is 'Badminton leagues and tournaments.' with a subtext: 'Play in a badminton league or sign up for a tournament. Enter results and track your standing. Organising your own competition? Manage players, rounds and results in one place.' Below this are two buttons: 'League' and 'Tournament'. To the right is a promotional banner for badminton with the text 'Od prvního kola po finále.' and 'Hráči, zápasy a výsledky na jednom místě.' Below the banner are icons for 'HRÁČI', 'ZÁPASY', and 'VÝSLEDKY'. The main content area has tabs for 'Leagues' (2) and 'Tournaments' (3). Below the tabs is a table of leagues.
